

Ashish Gusai

Co-founder, Mysyva Infotech · Senior Mobile & Full-Stack Developer

✉ ashish.s.gusai@gmail.com ☎ +91 84011 65880 📍 Bhuj, Kachchh · Gujarat, India 🌐 ashishgusai.com

SUMMARY

Senior mobile & full-stack developer based in Bhuj, India. Co-founder of Mysyva Infotech. 20+ live apps on Google Play; web platforms for clients across India, Oman, the UAE, and Europe. Comfortable end-to-end: from product shaping to architecture, Flutter apps, Laravel/PHP backends, and shipping. Engages as a founder, solo client builder, agency contractor, or rescue developer.

THE STACK

Mobile	Flutter, Dart, Android (Kotlin/Java), iOS (basic)
Backend	PHP, Laravel, MySQL, REST APIs, Filament, Node.js
Data	Hadoop, MapReduce, Spark, Pig, Hive, Kafka, Python
Other	Firebase, C# / .NET, Telerik, MS SQL, Arduino, Git

EXPERIENCE

Co-founder & Lead Developer

PRESENT

Mysyva Infotech · Bhuj

Co-running a small studio shipping Flutter apps and Laravel backends end-to-end — flagship products like Bakery Binge, Mazariecom (Oman), Raitech, Omkar Auto POS, Alertin, plus client builds across India and the Gulf.

Senior Mobile App Developer

2019 — 2021

NCEra Infotech · Pune

Led advanced mobile projects and mentored a small development team.

Data Engineer

2018 — 2019

Accionlabs · Bengaluru

Research and hands-on work across Hadoop, MapReduce, Spark, Pig, Hive & Kafka.

Android Developer

2016 — 2018

Netsofters · Bhuj

1.5 years of native Android & web development. Organized World Arduino Day 2018.

SELECTED PROJECTS

Bakery Binge

A complete bakery ordering platform built as three connected apps — one for customers to order, one for bakers to manage their shop, and one for delivery partners to fulfil orders. All synced through a single backend in real time.

Mazariecom — مكاريم

An e-commerce platform built for the Oman market, delivered as both a native shopping app and a full web storefront. Arabic-first interface, localized catalog, and a backend that keeps the app and the website in perfect sync.

ODD Distribution

A B2B supply-chain solution for a perfume & oud distributor — separate apps for distributors and super-stockists to manage inventory, place bulk orders, and track the chain from warehouse to shelf.

Gulf Calls · Web platform

A calling / communication web platform serving the Gulf region.

Khaao Healthy · E-commerce app

Healthy food ordering & grocery e-commerce for everyday clean eating.

Tirth I-Care · Customer + partner apps

A service platform with paired customer and partner apps on one backend.

Kutch Care News · News app

A regional news app delivering local Kutch news to readers' phones.

Skill Up · EdTech app

Helps tutors & students map skill gaps — a "skill sheet" instead of a mark sheet.

Print More India · On-demand printing

Order custom prints & stationery on demand, straight from your phone.

Vehicle Information · Utility app

Look up RTO vehicle details from a registration number in seconds.

MIMY · Jobs & internships

An internship & freelance-jobs marketplace connecting students with work.

Status Saver · Utility app

Save & re-share statuses easily — a lightweight, much-loved utility.

CONFIDENTIAL / NDA WORK

☐ **Satshatra** — EdTech / AI · A book reading & content management app with personalised library, short-story creation, and AI story generation from offline content.

☐ **Realtime Logistics Platform** — Logistics · A logistics platform with live vehicle tracking, geofence triggers, and a multi-event alert engine. Delivered as a backend contract.

☐ **Online Course Platform** — EdTech · Backend, APIs, and admin tooling for an online course platform. Built as part of a senior agency engagement.

☐ **Auto-parts E-commerce (EU)** — E-commerce / Automotive · Backend services for a European auto-parts e-commerce platform — catalog, orders, multi-language. Senior backend contract.

☐ **IoT Automation Game** — IoT / Gaming · Backend for an IoT-driven automation game project — device messaging, game state, and player analytics. Delhi-based engagement.

EDUCATION

MSc — Information Technology

2017 — 2019

KSKV Kutch University · Bhuj

Specialized in computer science, data & embedded systems.

BCA — Computer Application

2014 — 2017

Sankar Institute · KSKV Kutch University

Built an enterprise School Management System in C# / Telerik / MS SQL.

SSIP Selection

HONORS

Govt. of Gujarat

Arduino-based liquid weighing & pumping device selected under the Student Startup & Innovation Policy. 1st rank in college MapReduce programming challenges.

RECOGNITION

☐ **SSIP Selection**

2017

Govt. of Gujarat — Student Startup & Innovation Policy

Arduino-based liquid weighing & pumping device selected for funding under SSIP.

☐ **MapReduce Programming — Rank 1**

2018

KSKV Kutch University

First rank in college MapReduce programming challenges during data engineering coursework.

📅 **World Arduino Day — Organizer**

2018

Netsofters / Bhuj

Organized the local World Arduino Day event, bringing hardware hackers together in Kutch.

📅 **Open Source · Laravel Telegram Logger**

Ongoing

Packagist

Author of a production-grade asynchronous critical-log dispatcher for the Telegram Bot API, published for the PHP community.

📅 **20+ Live Apps**

Ongoing

Google Play

Sustained track record of shipped, maintained, and reviewed apps in production across India and the Gulf.
